18 - What aspects of the course and/or Sarah Kettelkamp's instructional methods have you found the most useful or valuable for learning? Please give examples. -	
<b>Response Rate</b>	6/18 (33.33%)
<ul style="list-style-type: none"> <li>• Kettelkamp made best efforts to be helpful. Overall, course is a waste of time, money, and useless information for non-biology majors.</li> <li>• clear and cuts to the chase.</li> <li>• Sarah made the content of the class extremely interesting and fun.</li> <li>• Great instructor</li> <li>• Sarah demonstrated fantastic knowledge for the lab and made the subjects easier to understand. Very helpful in explaining the more difficult subjects and communicated efficiently with the class.</li> <li>• Ms. Kettelkamp is a sexy woman and I enjoyed hearing her talk about the material that we covered during class. Enough said.</li> </ul>	

19 - What aspects of the course and/or Sarah Kettelkamp's instructional methods could be improved that would enhance your learning? Please give examples. -	
<b>Response Rate</b>	4/18 (22.22%)
<ul style="list-style-type: none"> <li>• For it being a one credit course, it is absolutely ridiculous the amount of busy work that is given, as well as strictness on attendance. As someone who shows zero effort and motivation in the class, Ms. Kettelkamp did her best with what was given to her.</li> <li>• none shes perfect</li> <li>• N/A</li> <li>• The class that I took was to the point. We learned what we need to learn. We had to think about what we did during experiments and why we needed to do certain things. All in all, I have zero critiques to give Ms. Kettelkamp.</li> </ul>	

20 - Please list additional comments and/or suggestions.	
<b>Response Rate</b>	5/18 (27.78%)
<ul style="list-style-type: none"> <li>• The fact that this is a mandatory course blows me away. It is a waste of my time and money that I could have used elsewhere. I am a senior and I have never, nor will I ever use the knowledge or material that was given during the course. The class is 2 hours and 15 minutes of me dreading my life counting the seconds for it to be over. I have never been so miserable taking a course in my life, until this one. My suggestion is to just delete the course from the course catalog and not make it mandatory. What is the purpose of taking a lab if you are a non-major in the first place? Knowing that all this is unrealistic and impractical, at the very least show more leniency as it pertains to attendance. Also, reducing the workload as well. The amount of work given adds a great deal of stress for it being only a one credit course.</li> <li>• MID TERM TOO HARD!</li> <li>• Sarah is awesome!</li> <li>• For the course, more field trips or more interaction with live/dead organisms would always be a good thing. One way to get people more interested in biology is first hand interactions so the more there are, the better.</li> <li>• I had a good time in this lab.</li> </ul>
