<ul style="list-style-type: none"> <li>• Sarah was always super approachable and very helpful. When we had experiments to do in class, the demonstrations she would do with the insects were really helpful.</li> <li>• Very attentive to students and always helping out when needed.</li> <li>• Nothing</li> <li>• Sarah was the best TA I've had in the 4 years I have been at FSU. She was very responsive, well informed of what is going on in the class, and extremely helpful. She was very involved with the students in regards to answering questions, helping during class experiments, and even knowing our names. Also, it was obvious that she genuinely wanted to see her student improve and succeed. She was very polite and just over all very kind and nice. She always wanted to help in any way she could. Additionally, I appreciated the quick responses via email when I had a question or concern.</li> </ul>

<ul style="list-style-type: none"> <li>• For papers, I like that we get the rubrics ahead of time so we know what your are looking for and then when we get them back we can see what score we got on specific sections. However, I think specific comments on the paper itself would help to improve understanding of what specifically is being looked for when grading.</li> <li>• Dr. Daniel and Sarah are the best lab instructors I have had in my four years at FSU.</li> </ul>
